Blossoming Seeds

by Blanche Duffy USA

Summer is the perfect time of year for us to evaluate where we have been and where we are going. We made it through the season of introspection or winter, and through the season of rebirth or spring. The seeds for what we hope to reap have been planted. Now we are ready for the blossoming of what we have sown.

How many times have we waited patiently for the winter to end and the time for planting to begin? When winter has finally given up its ghost and spring begins to tread in ever so slowly we take great joy in the thought of planting the first seeds of the season and feeling the joy of rebirth and renewal. Ever so slowly the seeds begin to germinate and the tiny shoots coming out of the ground begin to sprout and grow. What joy to look at our garden and recognize the results of our labors! And as we watch the plants grow and buds appear we feel almost a magical awe that what we have planted has taken on life and is growing.

Our lives replicate the changing of the seasons. When we are born there is little we can do but recognize that in our infancy we must wait to grow and gain some degree of independence. As we learn various lessons and gain some small measure of independence we are allowing the seeds to germinate within us that will someday grow into blossoming plants. Our adult lives are the summer of our existence – the blossoming of the seeds planted in the spring of our lives. It is the now for which we have waited! Now we have the independence to make our own choices, to decide for ourselves what course our lives will take.

Some of our choices will be wondrous successes in which we can show the world what beautiful blossoms we have become. Some of our choices may be less than spectacular and may leave us wanting to till them under and plant anew. Some of our choices may be total disasters that we rip up and throw into the compost pile.

Still, if we have learned from each experience that tells us all is not lost. As long as we learn from each experience – good, bad or indifferent –we have made some progress even if the lesson learned is not to repeat that choice.

All too many people spend their lives comparing themselves to every other blossom in the garden. They see the beauty of all the other blossoms and wish they, too, were as beautiful. If only they would look into a mirror they would see their own beauty. If only they would follow their stems down to their roots they might be very pleasantly surprised to find that they have grown healthy, sustainable roots while some of the other beautiful blossoms have shallow, weak roots that will not last the season.

It would be helpful if we did a self-introduction beginning with the beautiful blossom that is shown to the rest of the garden. Follow the blossom to the stem and take note of the health and sturdiness of it. Is it sturdy enough to hold the weight of the blossom or does the stem need some plant vitamins to add some heft to it? Follow the stem down to the roots. Are the roots large and healthy and spreading in many directions to be able to gather enough nourishment and water to stay healthy?

All too many people are dazzled by the beauty of the blossom and never look at the rest of the plant. But it's the combination of the entire plant – blossom, stem, roots – that will show the health/worth of the plant and whether it will be able to survive season after season! Appreciate the beauty of the other blossoms in the garden but do not neglect seeing the beauty of your own plantness! Every plant has a beauty all its own that is not duplicated by any other. Each blossom is unique in its own way! Accept your uniqueness and beauty as a gift from the Universe to be cherished and tended with love!

Namaste!

16th Annual Julian Gathering

Kingston, New York

October 25th to 27th, 2013

“Let Peace and Harmony Prevail”

The Seraphy Julian and teacher June Burke practiced and taught Peace and Harmony throughout the years. Thinking before acting was their constant reminder to us as they cautioned that we consider what possibilities there were before sounding the cry of “charge”. And ... as we all know, the transition from the Piscean Age to the Aquarian Age has certainly presented us with many challenges!

This 16th Gathering is dedicated to assisting the planet to eliminate the pain and hurts of the past and to make room for new and more harmonious experiences. Please join us in Kingston, NY, from October 25 to 27, 2013 to give support to the Julian/June Burke teachings of Peace and Harmony on the Planet Earth! Julian always said we should enjoy ourselves even while spreading the good works of healing and service and what better time when we gather as a community.

Brief Biographies of Presenters

For the 16th Annual Julian Gathering

October 25 – 27, 2013

Camille Albrecht: Speaker

LBSW, has over 30 years experience as a professional astrologer, medium and kabbalist. She is channel for guides, angelic force and inner teachers, including the Master Teacher, Aca'u. Camille has a rich history in spiritual studies and teaches classes throughout the country in self development, astrology and metaphysics. She is a certified teacher of the Julian Studies, including Self Development, Working Magus, the Soul Seal and Manifestation Techniques. Camille and her husband, Richard Grescowle were appointed by June and Julian to be the guardians of the Julian Teachings should Saul Srour no longer be able to fulfill that responsibility. In April, 2013, Camille and Larry Scheer agreed to co-lead the Julian Teachings Organization.

Larry Scheer: Speaker

Larry has a day job as a software developer in Silicon Valley, California. He has worked with the teachings of the Seraph Julian and June Burke for over 35 years. He is the co-leader with Camille Albrecht of the Julian community and Julian Teachings organization. He has been teaching the Development classes and Practical Magus Classes for over 15 years. He currently is teaching Development and Tarot classes. He has certified seven teachers to teach the Self Awareness Series. His book *Tarot: A Bridge on the Road to Life* was published in 2012.

Ralph Thiel: Speaker

Have studied electromagnetic energy for over 30yrs. Have presented energy workshops in several areas of the United States. For the past 25 years I have performed readings regarding the influences of electromagnetic energy for hundreds of people and continue to do so on a daily basis. I have had the pleasure of making presentations to the Julian Group on three occasions. I am a certified Kundalini instructor and a certified Meditation instructor.

Roberta Costisick: Speaker

My interest in herbs started in the early 1980's. I learned what I could on my own, coupled with my nutrition classes in college. Then I began taking classes in California and Arizona with nutritionist and herbalists to add to my foundation of the herbal knowledge. I have studied and expanded my knowledge ever since. I met June in the late 80's and it is a day I will never forget. I walked into her house for a reading and I looked at her and we just hugged. She said, "Welcome home, it is good to see you again". In the reading she gave me she invited my into her class. A day that changed my life.

Renate Hume: Speaker

She started with music, detoured to Pharmaceutical studies, leading into an intense search for answers in esoteric teachings. What ultimately resonated most were June/Julian's teachings in 1974. She became a Julian Method Instructor in 1981. In 1984 she started to certify students in TEA (Transformational Energy Alignment). A Reiki master with degrees in Hypnotherapy, she attained a master in Neurolinguistic Programming in Switzerland. Interested in Jungian thinking, she began to collect many tools to be able to communicate the importance and value of the teachings of ancient wisdom, regarding them as the foundation for a harmonious life. She retired from doing workshops in Europe and the US and at the Taos Institute of Arts in Taos, NM. In 2004 she relocated to California. As artist in residence at a 5 Diamond resort she created sessions for guests, among them "Personal Mandala Readings". It seemed that the lessons of her life had come together in that experience, a tool for helping others on their journey of self discovery.

Barry Burken: The Seven Hermetic Laws

Barry has been fortunate to have experienced several life changing experiences that introduced him to a path of Spirit and Self Discovery. One of the most significant of these experiences was meeting June Burke and Julian in 1980. Barry says that the classes and training he received redefined his life and infused it with an underlying sense of joy and purpose.

Adele Lederman M.S., RN, R.HYP: Healer

Adele has been a student and teacher of the Julian Healing Techniques since 1971. She has facilitated workshops in the Julian Healing Techniques, co-authored a Handbook of Julian Healing Techniques, and taught Spiritual Awareness. She enjoyed seeing those people seeking improvement in their mental, physical and spiritual lives.

John Svirsky: Meditation

John has been a student of June/Julian since 1980 using his psychic and channeling gifts as a reader and teacher in helping himself and others to live a life that is Happy, Joyous and Free Living from a God Conscious plane of understanding. His readings help each soul connect to their soul purpose, why they have chosen to incarnate this life time and help connect to their spirit guides and Angels. John helps souls cross to other dimensions of light and where appropriate helps them release from the Maya of this plane.

Jeanne Livingston: Altar Setup

Jeanne Livingston, (John Svirsky's partner), gratefully received many insightful and healing readings with Julian from 1985 on. Later she joined June's development class in La Grangeville, N.Y. Having been a successful Interior Designer for 36 years in New York she spoke at a gathering on her method of "Decorating with Astrology". June endorsed her book "Brother Lion, Words of Inspiration from a Spirit Guide" which was published in 1987.
